

Dict. to L-2.

Mar 19/13'

Mr William Anderson.

Sir,

Complying with the request for a test-reading I find from the specimen of writing and other data furnished that you were born under the Zodiacal sign known as Pisces. This sign also ruled the lives of Henry W. Longfellow, Victor Hugo, Grover Cleveland and Dr. Joseph Franz Gall (phrenologist). The great accomplishments of these men show the possibilities of the Pisces subject.

Briefly viewing the past I see indications of unfavourable vibrations for you during the last three months of 1909; there is also shown some unsatisfactory transaction in connection with agreements, papers or letters. There seems to have been some delays or disappointments during the first half of 1910, but the latter part of 1910 contained some especially favourable dates for you.

Looking forward in the same rough, hasty manner I notice two or three well marked periods in which some changes are shown and new undertakings are indicated. It appears that a former acquaintance or associate is to play a prominent part with your affairs but the scope of this reading does not permit of going into details.

You are endowed with a restless nature and an attentive, observing mind. In business matters you are a man with executive ability--you can be depended upon to carry out plans that have been made, and in a position of trust you would be most faithful. I would judge that you have a certain timidity about pushing forward your own claims. It is important that you should follow the right lines of work as with your nature much depends upon environment.

In affairs of the heart you are naturally tender and true and should look for your truest joy in a congenial marriage, but also for great disappointment in one that was lacking in the element of sympathetic understanding. Certain aspects of this matter show some unusually interesting indications that could be only properly dealt with in your Extensive Life Reading.

You should avoid worry as much as possible. Your disposition leads you to wish to provide against any emergency, which is of course a very good plan unless carried to such extremes as to cause undue anxiety. By warning you against worry I do not mean to be understood to advise lack of care, on the contrary, I would recommend you to be very careful indeed about certain affairs which seem too important to be left to chance--on this account you should become acquainted with the periods that are fortunate for you.

This twelfth constellation under which you had the good fortune to be born promises many travels, improvement in finances, possibly a change of residence; in fact your celestial indications promise an eventful life, with few dangers that cannot be avoided by proper Astrological advice.

Two.M.

As stated in my advertisements, the present test reading is supplied free of charge to all applicants, merely as a sample of what can be done by a qualified exponent of the true Chaldean Astrology. The indications are therefore necessarily very brief and of a general character. The information given, however, will be sufficient to enable you, as an intelligent man, to form a favourable opinion as to my capabilities, and this entirely without payment.

Owing to the enormous number of applications for the Test Reading, it is quite impossible to treat each individual case with the same thorough and comprehensive judgment that is devoted to special delineations. You must therefore make allowance for any slight inaccuracy in detail. It is of course only by patient and attentive study that all the vital points of a Horoscope can be brought out, and it would of course give me great pleasure to undertake an exhaustive investigation on your behalf.

Meanwhile permit me to call your attention to the fact that my procedure is entirely different from that adopted by so many alleged Astrologers, in that I am prepared to give absolute proof of my abilities before accepting any fee. The comparatively slight study now given to your Test Reading enables me to foresee that, in all probability, you will authorise me to make an Extensive Life Reading for you, seeing that it would embody certain vital points upon which you assuredly require to be informed without delay.

Please note that, in offering this additional information, I do not for one moment pose as in any sense a supernatural being. My work, properly understood, has nothing peculiarly mysterious about it. At the same time, my conscientious study of the most authoritative Astrological lore, and many years spent in pondering Horoscopical questions and difficulties, would presumably qualify me to give a trustworthy opinion in such matters. In any case, should the Extensive Life Reading not be deemed perfectly satisfactory, the modest fee charged for it would be forthwith refunded.

The said fee for an Extensive Life Reading is 20 shillings (\$5.00 U.S.A.). As, however, the preliminary calculations already made by me on your behalf will considerably abridge the further work involved, I am prepared (provided your order reaches me within 20 days of the receipt of this letter) to give you the Extensive Life Reading for the exceptional sum of 12 SHILLINGS (\$3.00 U.S.A.), and I would suggest if you are quite satisfied with it that you induce some of your friends to order similar readings, so as to compensate me for the reduction now proposed.

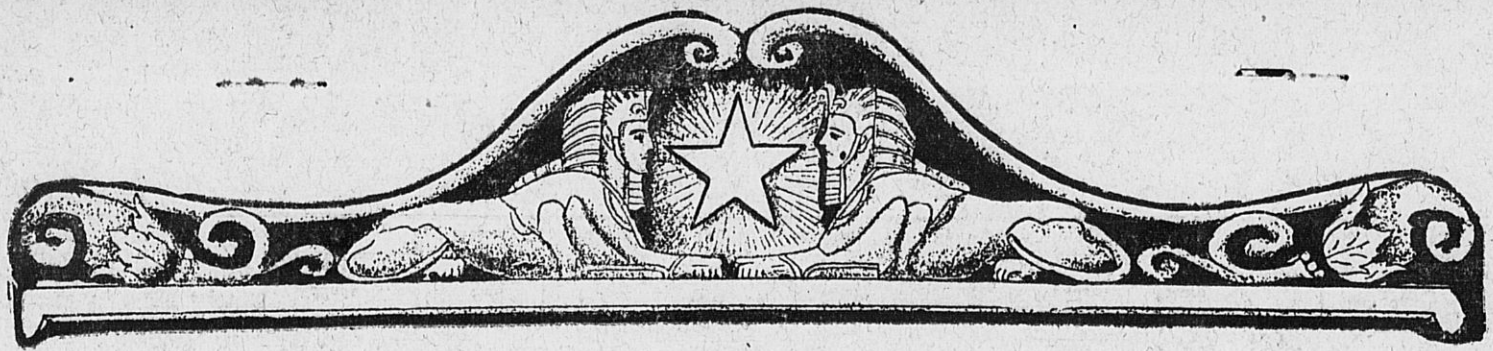

Were I permitted to do so, I could send you many more copies of the countless testimonials which I have received from thankful consultants, but proof of that kind is infinitely less satisfactory, on the whole, than the Test Reading now sent on your particular case.

I wish to add that the Extensive Life Reading will be accompanied by a FREE COPY of my YEARLY MOON TABLE, also of my DAILY HOUR GUIDE, showing the fortunate times for all things. You are too intellectual a man to ignore a logical proposition, and looking forward to your reply by return, I am,

Faithfully yours,

Roxroy

EXTENSIVE LIFE READING

For

Mr. W. Adnerson

WHO WAS BORN

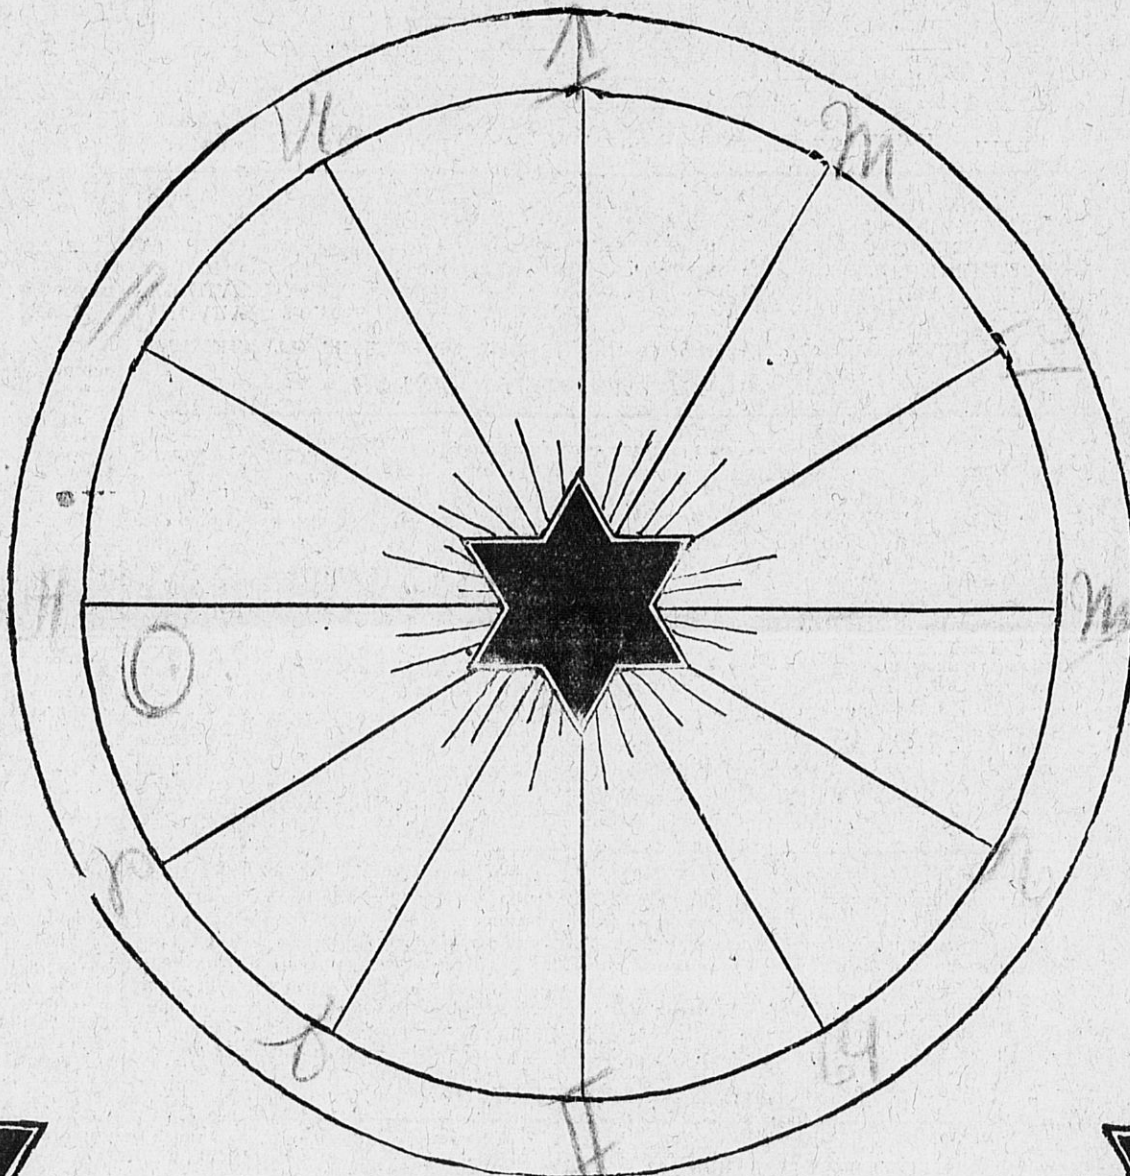

20-Feb- 41

UNDER THE SOLAR SIGN

RULED BY THE PLANET

Pisces

Jupiter

LTS 89.211

Mr. Anderson,

Dear Client,

You may assuredly derive considerable encouragement from the fact that Copernicus (the great Astronomer and Astrologer), George Washington, David Livingstone, Sir A. H. Layard, Longfellow, Cardinal Newman, and many more great men were born, like yourself, in the Zodiacal Sign Pisces, which comprises the period from 19th February to 20th March. The inner nature and final destiny of this Sign is Spirituality.

It is difficult to define the general characteristics of Pisces people, but I may say that in most cases they are constitutionally good mediums, so good, indeed, that they sometimes attribute their failings to other individuals into whom they have projected their astral body. You must at all times avoid the society of unscrupulous folk, as you might possibly be impregnated with evil from them, owing to your mediumistic qualities.

On the other hand, it is good to cultivate relations with genuine right-living people, and I shall refer to some of such later in your Horoscope, giving the birth-dates.

There are occasions when you vacillate in a painful manner, and are totally unable to come to a decision as to what you should do. When anything exceptionally momentous is involved it might be well to have a special Horoscope cast.

You are somewhat romantic and emotional, and may be subject to fits of brooding and melancholy. As an antidote cultivate the society of happy children, go to performances of a comic nature, &c.

Those who know you intimately will testify to the strength of your friendship. But do not rely too much upon the opinions and advice of persons professing to be your friends, as there are times when you might be deluded into doing things calculated to jeopardize your character and future. Moreover do not be too ready to support your alleged friends when they are criticised by reputable persons. When you have taken up a really good cause you may be relied upon to do your utmost.

Cultivate reasonable self-esteem and confidence in your rectitude, whilst preserving as far as may be your gentleness, patience, and faith in the goodness of things to come. In general, your instinct may be depended upon to give you a good idea of the character of people whom you meet, whether they are likely to be psychically sympathetic or the reverse.

It is not given to a certain number of your associates to understand your character as it appears in your Horoscope, so that at times your actions and motives are liable to be misrepresented. You must therefore take pains to express your views and intentions in the clearest possible language; and you will find it advantageous to make important statements in the presence of third parties who might if necessary be asked to testify to your good faith.

You seem to be provident and careful--even anxious--as to the future. You are to be congratulated upon your independent spirit which prevents you from being unnecessarily beholden to others. In the matter of money, there is foreshadowed a fair competence and enjoyment thereof.

Your birthstone is the Moonstone; your Astral Colours are White, Black and Pink.

Since the Rising Sign at the hour of birth exerts such a strong influence, sometimes even such a contradictory one, upon the life and destiny, it should be considered by itself. When the hour of birth is unknown it is safe to figure from noon of the day but more accurate results can be obtained when the exact hour is given.

At the hour of this nativity the Zodiacal sign PISCES was rising, which gives JUPITER, the planet of good fortune, as your co-ruler, Pisces endows you with a dual nature very hard to understand. In general you would be almost too easily influenced by those whom you admire and trust but once you get your mind made up to a certain course of conduct those who have found you so pliable before, may as well give up first as last, for they will find it nearly impossible to make the least impression upon you.

You are inclined to underrate your own ability and it may not be easy for you to advance because although you are so faithful in all that you do you lack the ability to push your claims. It is indicated that you would be a loyal friend and always ready to do all you could for anyone you are fond of. You are disposed to be generous in your estimate of others and both kind and sympathetic. Your affections are governed by your intellect more than by your emotions. In love you would be tender and true rather than intense.

You are fond of pleasure, of beautiful surroundings and of ceremony and splendour. As a companion you are considered jolly and entertaining. You should make friends easily and know how to hold them.

The influences of your Rising Sign would not tend to make you quarrelsome, but rather slow to anger; yet when thoroughly roused you would not get over it easily. You are too prone to worry for your own good. Any money matters that are not satisfactory are in danger of causing you much unnecessary annoyance. This tendency should be overcome as far as possible. Of course I do not advise carelessness in such matters but calmness. Above all you should avoid any disputes in reference to property, especially family property or an inheritance, as the indications are very unfavourable in connection with such troubles.

Long voyages are indicated as advantageous if undertaken in the right position of the Moon.

In any occupation requiring attention to detail you would probably be most successful since you would prove capable of exact methodical work and could gain facility in such directions much sooner than most people.

There are indications that you may have to contend with envy and malice from unexpected sources. You should not permit these matters to influence you too much, because an attitude of indifference toward your detractors would prove your strongest defence. Your natural magnanimity should come to your aid in these cases and help you to make friends out of your secret enemies. You are a lover of peace and always inclined to turn your thoughts to peaceful and restful things.

By nature you are proud and independent, in official positions you would be quite happy as well as very useful for your uprightness and reliability would show to advantage in any position of trust.

If I have gone into the characteristics more than into the events it is because I desire you to realise how much the former has to do in shaping the events. I trust that you will carefully consider the indications given with a view to controlling your actions that the shaping of your life may be in your hands and that you may be saved from the errors you might have made without this knowledge and enable to attain to the best God has planned for your life.

YOUR LIFE AS INFLUENCED BY THE MOON.

The position that the Moon occupied in the celestial sphere at the moment of birth has much to do with the career of an individual. By calculating that position and reckoning the extent and significance of its influence over you, the Astrologer forms conclusions as to certain dominant tendencies in your nature. The conclusions that I give you in this portion of your Horoscope are the indications shown by your Moon sign.

At the time of your birth the Moon was in Aquarius. This position of the Moon tends to give some inclination for astrology, mysticism or other occult matters. Subjects that are unusual, original, eccentric, or novel would attract you. At some period of your life you may join some secret or mystic society or association.

The Moon in this position would incline you to political, educational or scientific work. It would incline you to be broad and humanitarian, sociable and sympathetic in manners, but at times very independent, unorthodox and unconventional. Your imagination, intuition and mental sensitiveness are increased by this sign.

As the Moon exercises such a potent influence on your life, it would be well for you to become familiar with its various aspects and be aware if it is in a favourable position for the undertaking you may have on hand. On those days of the month when the Moon is in Aquarius, fortunate lunar vibrations will be favourable for you. At this particular lunar period you will usually be at your best. Your mind will be clearer and in a better condition for special mental work.

Arrange if possible to make important engagements when the Moon is in Aries or Sagittarius.

You may ascertain the position of the Moon each day this year by consulting the Moon Table herewith. A new Moon Table should be obtained each year.

Your best periods for making trades are shown to be when the Moon is in Sagittarius - for buying and selling when the Moon is in Libra - for travelling on land when the Moon is in Capricorn or Virgo, on water when the Moon is in Pisces or Cancer - for asking favours when the Moon is in Pisces or Sagittarius.

I would advise you to avoid as much as possible making important changes or engaging in new enterprises when the Moon is decreasing in light. From the new to the full of the Moon would be a more propitious time for such matters.

A careful study of your horoscope will assist you in surmounting many difficulties and achieving a higher degree of success. Observe critically the indications given from your Sun and Moon signs and other indications, for a close scrutiny of certain tendencies will result in your developing the higher and better qualities of your nature and overcoming those which may have retarded your progress along certain lines. It may possibly seem to you that some of the indications as shown by the different planetary influences which control you, are contradictory and do not apply to your temperament and disposition as you understand it at the present time. But if you will reflect upon many incidents of your career, you will probably recognize these very tendencies as dominating you upon certain occasions or it may be that the very characteristics you disclaim have not developed in your nature, while others may have been suppressed. The position of the Moon in the horoscope sometimes changes or modifies the indications as given from other planets.

LIFE AND HEALTH.

Surviving your thirtieth year you should, by strict adherence to the regulations of hygiene, live to be eighty years of age or more.

The years of your life which are shown to be under unfavourable influences are your 9th, 18th, 27th, 36th, 45th, 54th and 63rd. These are the years when evil planets transit your sign (Pisces) and tend to excite or act upon your physical body. Therefore care in all matters pertaining to the health should be exercised during these years.

Your feet and stomach are the parts of your body indicated as being susceptible, to a greater or less degree, to afflictions. The digestive organs should always receive the most careful attention. Select diet that agrees with your constitution and avoid indigestible foods.

From February 19th to March 19th, June 21st to July 22nd and October 23rd to November 21st are the days in each year when the most favourable vibrations exist for your health. Consequently your important undertakings, which would naturally require a good state of health, should if possible be fixed for these dates.

The years of your life which show favourable vibrations for health are your 16th, 23rd, 30th, 37th, 44th, 51st, 58th, 65th, 72nd and 79th.

Precautions should be taken of accidents between August 23rd and September 22nd. During this period I would not advise travel by water, the handling of firearms or carelessness in approaching animals.

Avoid excessive brain work or any vocation that might tend to over-tax the nervous system.

The best time to treat the eyes is when the Moon is in Cancer or Leo. Laxatives are best taken when the Moon is in Pisces.

The periods in each year when the health requires care are the latter part of May and early part of June, latter part of August and early part of September and latter part of November and the first twenty days of December.

FRIENDS.

Your elderly friends are most likely to prove more staunch and true than those belonging to the younger class. However, it is advisable for you to depend as much as possible upon your own energies. Beware of over-confidence in persons born from May 21st to June 20th and from November 22nd to December 21st.

Your best social periods are those when the Moon is in Pisces, Cancer, Sagittarius and Aries. To ascertain the exact dates when the Moon occupies the signs indicated you should consult the Moon Table which gives the exact position of the Moon for each day in the year. The Moon Table sent herewith is of course for this year only and a new Moon Table should be sent for the following year.

Indications point to success in overcoming your enemies as Jupiter is a strong planet in your life.

Your best friends are indicated as being those born between February 19th and March 20th, between June 21st and July 22nd and between October 23rd and November 22nd.

Your most fortunate days are usually Thursdays and Fridays.

It is indicated that you will have many friends, some of whom will be really devoted and that one or more of these friends who are in a position

to render assistance will contribute toward your final triumph over certain difficulties.

Your enemies are not likely to be successful in injuring you provided you use precautionary measures.

FINANCES.

I find it rather difficult to treat the subject of finances in more than a general way. We are living in an age in which little or no attention is given the adaptability of sex of the various pursuits. Men and women are to-day striving for success in the commercial world and the line is not closely drawn which designates the vocation to be followed exclusively by male or female.

We have successful dressmakers in the masculine world and proficient farmers and stock raisers in the feminine class. Therefore in attempting to outline the vocation most advisable for your life, allowance should be made for environment and conditions, of which I have no opportunity of gaining a knowledge.

Success is indicated in Mercantile, Publishing and Literary lines. A public life would no doubt prove profitable but many changes in financial affairs will probably be met with before success to any great degree will come.

Your best months for business are February, March and July. Your best years, your 24th, 36th, 48th, 60th, 72nd and 79th.

See that the Moon is in a favourable position for the undertaking you have at hand. The most favourable times are when the Moon is in Cancer, Pisces or Scorpio.

Avoid as much as possible making changes or entering into new undertakings when the Moon is decreasing in light. The most favourable times for you are from the new to the full of the Moon.

It is always advisable to have a special Horoscope cast before entering into new enterprises or making any changes of great importance.

Under proper conditions you could succeed in partnerships. The persons most likely to prove trustworthy and agreeable partners are those born between June 21st and July 22nd and those born between October 23rd and November 21st.

The directions indicated as being most fortunate for you are South, North and Northeast.

Avoid speculations, games of chance or lotteries.

Your best locations for health or business are Spain, Egypt, Mexico, Canada, the Orient and the Northeastern United States of America.

Legal complications should be avoided as much as possible.

LOVE, COURTSHIP AND MARRIAGE.

In discussing these subjects, I always advise as to favourable and unfavourable indications but it must be remembered that while the conscientious Astrologer is ever anxious to have his clients profit by his advice yet it frequently happens that this advice is not properly heeded and it is not uncommon to have certain influences come into the life of an individual and upset all plans and calculations.

I cannot control the actions of my clients and therefore should not be

held accountable for errors, which if made may bring unsatisfactory results. Astrology can only point out the dangerous or favourable course as foreordained by the Stars, and must rely upon the individual for the execution or carrying out of certain well defined laws which in a very large majority of cases have proven the efficacy of the grand old Science.

More than one opportunity for marriage is shown in your life. The years which give the most favourable indications are your 26th and 36th years.

An early marriage is not advisable although under favourable signs an early union might prove happy. Some sorrow or disappointment in home matters and affairs of the heart is indicated.

The persons most likely to make married life harmonious for you are those born from Feb. 19th to March 19th, from June 21st to July 22nd, from October 23rd to Nov. 21st.

If married to a person born during the dates mentioned the union should prove happy.

On those days and nights when the Moon occupies the Zodiacal signs of Libra or Taurus you will find that your love affairs will progress more smoothly than at other times.

Before entering into close relations with any one it is always advisable to obtain the Horoscope of the individual in question and have that Horoscope compared with your own.

CONCLUSION.

A more settled financial condition is indicated for the latter years of your life.

The best years for travel are your 27th, 36th, 45th, 54th and 63rd. Too many changes are not advisable.

Be careful about signing contracts and important papers. Avoid quarrels and disputes, especially with relatives, as legacies are indicated for the latter part of your life if their good-will is maintained.

While several journeys are indicated I would not advise much travel as your financial prospects might suffer therefrom.

You may possibly receive unpleasant treatment from blood relations and should exercise good judgement at times when your patience may be tried.

In all of your dealings be just. Try to live so you can face death without fear. Strive to uplift your fellowmen and take good care of your individual self. Study well your planetary vibrations and take advantage of the good years in your life. There are indications of a more promising future for you than is shown in the lives of many of my patrons. If I can be of service to you at any time command me.

Sincerely,

Randolph Roxey

CHART, MOON TABLE AND DAILY HOUR GUIDE FOR 1913

The Moon Table below on each side of this page shows you the signs of the Zodiac, through which the Moon passes every day during this year; for instance, under January, on the 1st, the Moon is in the sign Scorpio, also on the 2nd and 3rd; on the 4th and 5th it is in Sagittarius, and so on for each day and month of the year.

This Table is, of course, only for 1913, as the Moon's position changes each year. You will need a new Moon Table for each year. My Moon Table and Daily Guide for 1914 will be ready about October 1st, 1913. You should send in your order for one early. Price for 1914 Table will be One Shilling (25 cents United States and Canada).

THE DAILY HOUR GUIDE.

King Solomon said: "To everything there is a season and a time for every purpose."

There are hours when most favourable progress can be made. Each Planet in turn rules each hour from **SUNRISE**, the others are ruled each in order of their succession, the order being that of the Planets, Sun, Venus, Mercury, Moon, Saturn, Jupiter, Mars. On Sunday the first hour after Sunrise is ruled by the Sun, second by Venus, third by Mercury, etc., until the eighth, when the Sun rules again and so on until the twenty-fourth, when it will be found the Moon rules the first hour after sunrise of the next day, which is Monday. Therefore, for speculation, love, personal affairs, etc., you should take that HOUR wherein a favourable Planet rules the business on hand as follows.

MERCURY. The hour of Mercury is good for writing letters, signing papers and for all literary affairs.

THE MOON. The hour of the Moon is good for travelling on water, beginning short journeys, dealing with women, making researches, asking questions, making new acquaintances, visiting, etc.

SATURN. The hour of Saturn is evil. Unfavourable results are apt to follow things begun at this time. Sell anything, especially real estate or any-

thing pertaining to the earth, in this hour.

JUPITER. The hour of Jupiter is good for all purposes. This hour is good for asking favours of rich persons, banks, seeking employment, collecting bills, buying anything, speculating for a rise, etc.

MARS. The hour of Mars is unreliable. It is an evil hour, but not so bad as the Saturn hour. The hour of Mars brings danger, accidents from metals, battles, assaults and slanders.

Dear Client,

May I have the pleasure of preparing for you a Special Annual Reading for the whole of the year 1914? As you have never had an Annual Reading from me I would point out at once that it is quite a different thing from the Extensive Life Reading which I prepared for you.

The Annual Reading deals with all matters pertaining to the particular year for which it is drawn up, and goes into such details of everyday life that could not possibly be dealt with in a full Life Reading. The Yearly Reading which I would prepare for you would cover about as many pages as your Life Reading did, but of course it would be full of those important details and precise dates which I know would be of such great value to you.

In an Annual Reading I am able to tell you from month to month throughout the year the exact dates when you need to be on your guard against evil influences, and also when to take advantage of the favourable opportunities that will present themselves to you. By knowing beforehand these dates you can, with a little effort, avoid part, if not all, of the bad periods and benefit from the good periods. Do not allow yourself to be in ignorance of these dates. My advice to you is, be prepared and act at the right moment. By doing this you will not only avoid many serious mistakes but strengthen your position in life, and make your future brighter and happier than ever it has been before.

It might be of interest to you to know that I have already devoted a good deal of time to the preliminary preparation of your Reading for 1914, and although I have not as yet written it out fully, still I see very many important indications which concern you personally, particularly three dates in the earlier part of the year about which you should certainly be acquainted so that you may derive full benefit from same.

The enclosed sheets showing Fulfilments of my Predictions and unsolicited testimonials of some of my clients should prove beyond doubt my ability and power to foretell the events that are to happen to any person, no matter at what distance. Will you not let me do as much for you as I have done for others? Fill out and send back the enclosed Order Blank and I promise you a very careful study.

I want you to become a regular client for an Annual Reading and as an extra inducement, I am going to depart from my usual fee of \$3.00 and ask of you only \$2.00 (4 Gulden 80 cents in Dutch money). What is more I would send you my carefully arranged Moon Table and Daily Hour Guide for 1914 (which in itself is of great value) free of charge and in order that you shall not run any risk I guarantee to refund the amount in full if you are dissatisfied with your Reading and return it to me. I hope you will take advantage of this liberal offer now as I cannot promise you the low fee if your order is not sent off within 10 to 15 days from the time you receive this letter.

Awaiting your prompt and kind reply, I remain,

Sincerely yours,

Randolph Roxroy

Steno. 34 A/E.

P.S. Please note my new address. I have moved from London to the Hague, where I am nearer to most of my clients, and in more spacious quarters.

Mr W. Anderson.

Dear Client,

The Annual Reading is a detailed arrangement of the planetary influences for the whole year. This, of course, differs from the Life Horoscope which gives the important and general influences operating throughout life whereas the Annual Reading deals with the ordinary events of the particular year.

It is prepared from the Solar and Lunar Signs, the Rising Sign and the planetary aspects thereto.

In this way events of our lives are brought about and influenced by the planetary vibrations as they progress from month to month.

Similarly all the tendencies and possibilities of our character and temperament are allowed to grow as the barriers of life are gradually opened more and more for us, and whether good or bad the experience derived therefrom helps us to bring about our own progress and endows us with a better understanding of the workings of nature.

During the middle months of the year 1914, Jupiter in good aspect to your Solar sign promises increased business results and financial dealings will be much more satisfactory.

Saturn, however, during the earlier months causes hindrances and delays. Your health is liable to be weakened somewhat, particularly about May. Guard against over-exposure and endeavour to keep your body in good circulation as in this way you will be considerably improving matters.

Mars during the first three months of the year is in trine aspect to your ruling planet and inclines strongly towards journeys. These, however, are not altogether advisable as Mars is not dignified.

August and December are months requiring care. There is a tendency to over-impulse. Take matters calmly and steadily and avoid new undertakings.

October is more favourable. Some success is indicated from your own efforts, combined with the help of friends.

Jupiter in conjunction with Herschel indicates sudden and unexpected benefit in some way. This aspect will also tend to over-rule the evil influences of your enemies.

More benefit is promised by avoiding hasty action and by a steady application of effort towards your general improvement.

By knowing in advance to which vibrations you are subject during the year 1914, you may guard against the evil and take advantage of the good.

The influences derived from the various signs should be studied together and then blended so that you will know fully the vibrations operating for any given time.

I will now give you the indications as produced from the Rising and Lunar Signs.

The passage of the planets through the various houses or divisions of the Zodiac is exceedingly important. These influences should be counterbalanced and blended with those of the Sun and Moon sign so as to have a complete delineation for the whole year.

The transit of the planets in connection with your Rising sign Pisces tends to accentuate your feelings and ideas of mind.

Jupiter transiting the 11th House denotes new friends and benefits from acquaintances.

Mars in trine aspect to your Rising sign from February to April tends to overrule the disturbing influence of Saturn and indicates increased activity of mind and body.

You will feel more confident in yourself and propositions at this time will tend to produce good results, particularly in October and November when these influences re-occur with increased force.

Guard against a liability to colds and accidents in June and July when Mars transits the 6th House in opposition to your Rising sign.

Mars in the 8th House during September tends to depress your financial affairs. Avoid all excessive expenditure and guard against waste and extravagance. Venus, however, becomes stronger during the last half of the month and tends to a smooth and happy period.

Avoid disputes with superiors during December.

Saturn on the Cusp of the 4th House tends to worries in the home life but the trine aspect of Jupiter will assist you much and you should easily overrule these temporary evil influences.

It should be remembered that these planetary influences seldom last for more than two months, often not so long, so that by exercising our will-power and self-control we can eliminate the evil influences by taking matters quietly and steadily, and further anticipate the good influences.

Mars in the 7th House during August is not good for business associates. Do not undertake important matters at this time and avoid any tendency to extravagance in law-matters.

This period should be used in preparation for the better times coming.

"Forewarned is forearmed," and by knowing in advance when evil is indicated it is expected you will counteract the evil vibrations and be able to take advantage of favourable transits as they occur.

I trust that you will carefully consider the indications given with a view to controlling your actions that, in the shaping of your life, you may be enabled to attain to the best God has planned for you.

Having now disposed of the indications shown from the Ascending sign I will next give you the vibrations indicated from the Lunar sign, since all the signs should be studied together in their varied aspects throughout the year.

The position of the Moon in your life indicates that, according to its influence as it transits through the Zodiacal signs, certain days are destined to be fortunate for particular purposes.

You will find that on certain days the astral vibrations will cause you to be better able to transact matters pertaining to your daily life while on others you are likely to have everything go wrong; these days I will name for you, first the general and then the special days. At the time of your birth the Moon was in AQUARIUS.

Jupiter in good aspect to the Moon during the year, with Herschel also in good aspect, tends to unexpected experiences and brings opportunities for gain and advancement.

During the early months health requires care, and disputes with business associates and in the home life should be avoided.

In February and October Mars tends to unsettled conditions in the home life, but these will soon adjust themselves. Do not expect too much at these times as favours asked for lead to disappointment. Keep your own counsel and avoid strife or misunderstanding.

From January to March Saturn's aspect tends to steadier conditions and the good aspect of Jupiter brings more hopeful vibrations into the life.

The astral vibrations on certain days you will find favourable; on others unfavourable vibrations will cause everything to go contrary to your wishes and upset your plans. The good and evil days I will give you first from general indications and then the special dates.

During 1914 the planet Herschel is in aspect to the Moon's place at your birth and brings a nervous, restless vibration; you feel like making changes and grow restless under existing conditions. Study carefully all the indications given lest you make a mistake.

Be careful of exposure and look well to health during the early months. The favourable transit of the planet Jupiter will help you overcome the evil periods referred to.

Financial affairs require caution during the early part of the year. The latter part of the year the favourable aspect of the Sun tends to better conditions.

Note carefully the above dates and compare them with the dates I give you from the planetary aspects. Where one or more dates seem to conflict, there will be both good and evil vibrations in force and the best dates should be chosen. When in doubt, postpone until the dates are favourable.

See that the Moon is in a favourable position for the undertakings you have on hand. A special horoscope should be cast for any new enterprise or before asking favours, etc.

You may ascertain the position of the Moon each month by consulting the Moon Table on the Chart sent herewith. I will now give you the aspects for each month of 1914 from the other planets acting in your Solar revolution and the transits.

JANUARY - 1914 opens with Mars transiting the Sun. This should bring courage, increased health and activity and also inclines to changes and journeys, increases mental activity, is better for business than for health, better for dealing with young people than with old, brings good influences with the opposite sex, but attachments or friends made at this time are not likely to prove satisfactory or lasting.

The most uncertain dates are the 1st, 10th, 15th, 18th, 20th, 22nd and 26th. The 12th, 19th, 29th and 30th tend to gains and can be used for changes, journeys or new undertakings.

FEBRUARY - The influences for this month tend to general improvement; the health vibrations, however, are not so good and care at times of exposure should be exercised. Avoid disputes with female friends or relatives and be careful in whom you confide your private affairs this month, as there is danger of losses or disappointment through over-confidence.

This you can overcome by keeping your mind on the adverse vibrations, especially about the 16th and 26th.

MARCH - This month, while still under the restless vibrations of Mars, will enable you to move with more spirit and hope, tending to better results.

The middle of the month indicates some pleasurable experiences which will later bring beneficial results.

The 11th, 18th, 25th and 31st should not be used for matters of importance as the aspects are disappointing.

The 28th tends to disturbing influences; correspondence entered into at that time may prove disappointing but will later be to your satisfaction. The most fortunate vibrations of the month are the 16th, 20th and 30th.

Study carefully all the dates given you, and where conflicting aspects are shown choose the best days given.

On the dates not mentioned no important aspects are formed and such dates can be used for ordinary matters. For any special matters it is best to have a special Reading made, covering the indications then in force, as they apply to the undertakings on hand.

APRIL - This month on the whole will be an unsettled month both for health and business, though much good is shown. Realising that a restless time is shown, you should, in the preceding months, strengthen your health and arrange your business and household affairs. "Forewarned is forearmed" and a little preparation often finds one so fortified that the evil indication can be passed through without any serious results. The 3rd brings a favourable vibration for business and general undertakings; the 21st for financial transactions. Be particularly careful on the 8th, 14th, 22nd and 29th and do not ask favours on these days.

Be careful of your dealings with elderly people about the close of the month, and do not be induced to lend anything you cannot afford to lose at this time, as deception and loss is indicated.

MAY - Saturn tends to cause a period of restlessness this month. Monetary affairs are rather depressed. Do not put money into ventures suggested and

supported by supposed friends. Do not lend money at this time and guard against speculation, lotteries and suchlike affairs.

There are indications about the 11th of trouble through enemies but these will be eventually dispelled by occurrences on the 18th and 28th.

Mars in sextile to the Sun at the end of the month tends to more active vibrations and enables you to take up matters with more vim and better prospects of success.

The days when health needs care are the 2nd, 5th, 8th, 12th, 15th, 20th and 26th. The 1st, 10th, 14th, 18th, 23rd and 28th are good for matters requiring clear judgment.

JUNE - This month will give some active vibrations with conflicting tendencies. It is a good month for minor changes. Impulsive actions should be guarded against.

The 2nd, 8th, 12th, 17th, 22nd and 28th are dates requiring care. Over-exertion and mental worry should be guarded against. Get plenty of fresh air and you will keep your system in better condition for clear thinking.

The 6th, 10th, 15th, 20th and 25th show good vibrations and tend to improvement.

JULY - Saturn will tend to slightly disturb your general affairs but the Sun in good aspect to your Sun sign at birth produces a better vibration. This is a good month for social and business matters. New acquaintances made this month will be of benefit to you and help advance your interests.

The 3rd, 8th, 12th, 22nd and 31st will be good dates for asking favours or making changes, and you will feel more active and have a clearer mind on these dates. Use them, therefore, for matters of importance.

AUGUST - Mars in opposition to the Sun tends to sudden changes, accidents and feverish conditions. The mind will be erratic and irritable, and disputes and misunderstandings should be guarded against. Guard well the affections and exercise care in financial matters as a tendency to over-generosity is indicated.

The 5th, 7th, 15th, 23rd and 29th are the low vibration days; do nothing carelessly or in a hurry.

The latter part of the month brings favourable news and better social and financial conditions.

This is a good month for vacation so that all important matters could be avoided. Venus is stronger during the second half of the month and brings an improved condition into your life. A Mercury vibration about the 18th indicates some pleasant acquaintances and correspondence which could be followed up advantageously.

SEPTEMBER - Saturn now comes into trine aspect to your Solar sign. This is supported by the strong position of Neptune and a gradual change for the better will come into your life.

The little events of everyday life will be smooth and harmonious. You can now commence to put your affairs with some degree of confidence and success.

The Sun forms a trine or good aspect this month and tends to a more hopeful condition. The latter part of the month offers opportunities for advancement of

which you should take advantage. Now is the time to plan for new conditions, for whatever is commenced during this aspect leads to favourable results.

The 3rd, 6th, 12th, 16th, 19th, 20th, 25th and 28th show vibrations tending to erratic condition. Be careful on these dates of indiscreet actions. Avoid disputes with people in power lest any reflection upon your honour result. These times tend to alternate credit and discredit and care should be exercised in any letters or papers you may be called upon to sign or write.

OCTOBER - Mars in good aspect to the Sun brings favourable vibrations, increased activity, inclines to changes and journeys and augments mental and physical energy. Avoid over-confidence in female friends or quarrels with relatives.

The days of low vibrations are the 5th, 8th, 10th, 17th and 23rd.

The best days for changes and new undertakings are the 2nd, 7th, 12th, 18th and 22nd.

NOVEMBER - The Sun in good aspect to your Solar sign the latter part of the month produces a better vibration. This is a good month for social and business matters. New acquaintances made this month will be of benefit to you and help advance your interests.

The 6th, 10th, 13th, 15th, 18th, 26th and 29th are uncertain, tending to low vibrations and disturbing influences. Rather consent to let matters take their course on these days and not be over-active.

DECEMBER - The year now closes with intermixed influences. Your efforts this month should be devoted towards the satisfactory arrangement of all outstanding affairs.

Pleasant experiences with friends of the opposite sex are shown about the middle of the month.

Use care in all correspondence dealings with relatives, etc. on the 3rd, 9th, 16th, 21st and 30th.

Opportunities for improvement are shown about the 5th and 23rd which can be followed up to advantage.

Always remember that Astrology is not fatalism. The planets incline, they do not compel. By realizing that these influences are simply temporary you will be able to over-rule them and face the future with increased confidence. I shall be pleased to assist you in any way possible at any time you are in need of advice.

Sincerely yours,

Randolph Royce

THE DAILY HOUR GUIDE.

King Solomon said: "To everything there is a season and a time for every purpose." There are hours when most favourable progress can be made. Each Planet in turn rules each hour from Sunrise, the others are ruled each in order of their succession, the order being that of the Planets, Sun, Venus, Mercury, Moon, Saturn, Jupiter, Mars. On Sunday the first hour after Sunrise is ruled by the Sun, second by Venus, third by Mercury, etc., until the eighth, when the Sun rules again and so on until the twenty-fourth, when it will be found the Moon rules the first hour after sunrise of the next day, which is Monday. Therefore, for speculation, love, personal affairs, etc., you should take that HOUR wherein a favourable Planet rules the business on hand as follows.

THE SUN. The hour of the Sun is good for asking favours, writing letters, signing papers, deeds, wills, leases, contracts, etc., and for buying goods to resell. Seek employment at this hour and deal with those in authority.

VENUS. The hour of Venus is good for all purposes, especially for dealing with the opposite sex, proposing marriage, asking favours, taking medicine, collecting bills, feasting, signing papers, travelling by land.

MERCURY. The hour of Mercury is good for writing letters, signing papers and for all literary affairs.

THE MOON. The hour of the Moon is good for travelling on water, beginning short journeys, dealing with women, making researches, asking questions, making new acquaintances, visiting, etc.

SATURN. The hour of Saturn is evil. Unfavourable results are apt to follow things begun at this time. Sell anything, especially real estate or any-

thing pertaining to the earth, in this hour.

JUPITER. The hour of Jupiter is good for all purposes. This hour is good for asking favours of rich persons, banks, seeking employment, collecting bills, buying anything, speculating for a rise, etc.

MARS. The hour of Mars is unreliable. It is an evil hour, but not so bad as the Saturn hour. The hour of Mars brings danger, accidents from metals, battles, assaults and slanders.

Professor of Astrology

Dear Friend:-

On page eight of the circular I enclose you will notice a letter from me that I thought would cover all important points regarding readings, etc., but I wish to impress upon you that a life reading will help you to become the ruler of your own destiny, and by heeding the warnings of the stars you can guard yourself against dangers that threaten you.

You have latent powers and capabilities of which you are not making the best use. You are letting good opportunities for advancement pass by, because you have not the courage to change or to rely upon your own judgment. You are often oppressed by a feeling of evil that clouds your mind and hampers you in your efforts. Why not seek a remedy? KNOW YOURSELF. Develop your talents and learn how to conquer these obstacles, and you will be more happy and successful than you have thought was possible.

Do not longer hesitate and remain in darkness regarding these matters, but have a reading by Astrology, not just to gratify your curiosity regarding the future and my power to reveal the past, but for the GOOD to be derived, the benefit it will be to you through your future life. Everything told in plain language so it can be easily understood.

Those contemplating marriage should not fail to have a reading, for no man or woman should think of marrying unless they know their own tendencies, weaknesses, etc. It will greatly help you to attain to that state of perfect accord and happiness that every marriage should be, for it will show you why dissatisfaction and quarrels might arise.

I do not claim to be a great wizard, with the power to tell you ALL the hidden mysteries of the future, but I do claim to give a reading that is fully worth to you what you pay for it, and I hope much more, for all my patrons are satisfied.

Feb 11/13. You can secure a life reading now or at any time in the future for \$2.00, and bear in mind the GENERAL reading with five questions answered is only \$1.00, and if you feel you cannot afford to pay \$2.00 for the life reading, then try the \$1.00 one, which I will make as full as I can for the money.

Your friend and well-wisher,

L. Thomson

P I S C E S .

When you first beheld the light and were ushered into the world the Zodiac sign of Pisces, the Fishes, controlled your destiny. Your governing planet is the great and beneficent Jupiter. You have a nature which is hard for some people to understand. There is about you a pronounced ingeniousness and you have an agreeable and comprehensive mind. You are reticent, thoughtful, persevering, active and you have considerable mechanical ability, which if you would develop, you would be able to gain considerable success in the line of mechanical invention. You like to be out in the open air, and you delight in rural pleasures. You are easily discouraged, but there are times when you are greatly depressed and melancholy. At these times you should seek jovial society so as to attract your mind away from yourself. You are greedy after knowledge; you have desires to know all about any subject that may be presented to you. In this way you have acquired information upon a great diversity of subjects. You are generous at times to extremes, and you are self-sacrificing where your friends and relatives are concerned. Your impulses are charitable and you help people, but you are afraid they will deceive you. You do not willingly submit to a master; you expect people to give in to you and you do not desire to submit to their dictation. You are conscientious and give full equivalent in all your dealings. Your one weak point is your lack of your appreciation of your own value. You are proud and wish to be self supporting. You have no desire to depend upon anyone for help. You are not found wanting when placed in a position of trust. You have a faculty of seeing and hearing things and taking note of everything without asking questions. You are very anxious about money matters and provision for the future. You have several powerful enemies who will cause you some trouble. A legacy will be left to you but you will have some difficulty in securing it. There will be some annoyance in your family relations and the work which you will be called upon to do will not be satisfactory to you.

Y O U R A F F I N I T Y .

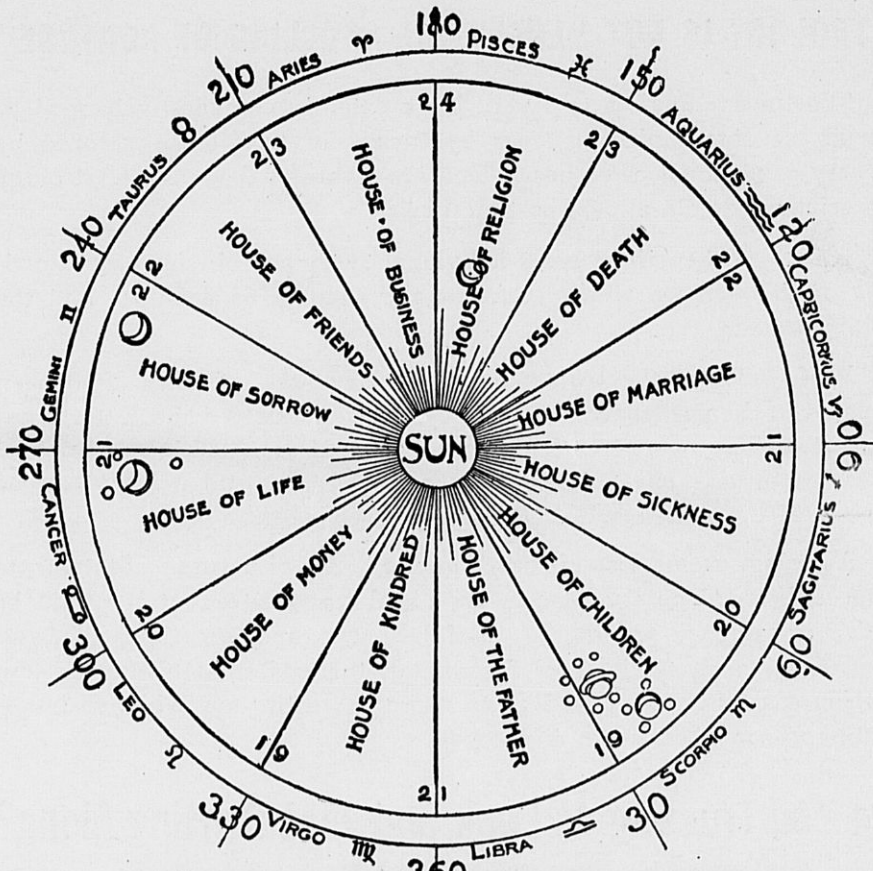

Your ideal sweetheart should be a Cancer character; a slender body; rather tall, but well formed, a ruddy brown complexion, dark hair, shrill voice, a witty, discreet person, exceedingly well-spoken, studious and given to history. Will be fortunate in middle life, has a strong love nature. To love is to worship, although quite modest. Will grow old slowly, a great lover of music and harmony. Cancer people will never push forward as they should, consequently will not be recognized to the full extent of their abilities. Very energetic, industrious and always busy.

You could also get along with a Capricorn or Scorpio person but much depends upon the position of the other planets in your Horoscope which can only be told by casting a full life reading, in which advice as to marriage, love and business is given, and all questions answered.

• SKELETON HOROSCOPE •

There are seven Planets that govern the things of the Earth Jupiter and Venus, which are favorable, Mars and Saturn unfavorable The Sun and Moon, which counteract the influence of the others, and Mercury, which is undecided, uncertain and inconstant.

The Zodiac is a belt of the starry zone, eight degrees on each side of the elliptic, divided in twelve equal parts of thirty degrees each, which are called signs, namely: Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius and Pisces, corresponding with the twelve solar months of the year. Each of the planets and signs exercise a particular and distinct influence over the character, temperament and life of every human being, according to the positions they occupy at time of birth. Each of these twelve signs is divided into twelve parts of sixty hours and forty-eight minutes each, called houses shown in above diagram.

Astrology teaches everything that is pure, moral and upright. No matter what your profession or position may be, you will find the knowledge to be gained a great help through life. We cannot stand still. We must advance or go backward. Remain ignorant of your talents or your opportunities and you will be overcome. Why neglect your opportunities?

I will answer any questions you may ask and impart other information of intense interest to you.

Accept my proposition and be ready for your opportunities—be prepared to make the most of life—to secure its richest blessings for you.

YOUNG MEN AND WOMEN LOOKING OUT ON LIFE.

WARNING!

A new firm advertising from Kansas City have copied verbatim my trial readings, letters, and all printed matter and are even using the same style of advertising.

I wish to warn all patrons that I have no connection whatever with this firm.

I take considerable pride in my work, as I have been advertising from Kansas City for 25 years past and do not wish any one to think I need to resort to a new name to secure clients.

It is noticeable in this other party's circulars that they publish only a few testimonials, and these have no addresses.

Old costumers of mine have received these circulars and have sent them to me, asking what it means, etc.

The field of Astrology is open to all, but any one entering it should have sufficient originality to get up their own reading matter and not make absolute copies from some one else.

A word to the wise is sufficient.

WHAT THEY SAY:

I had one of your readings last year and I must say everything has come out about as you said. I then was Miss Ila Burris, but since I have married, as you said.—Mrs. A. L. Middleton, 9 Victoria Apts., Omaha, Neb.

I am pleased to say that almost all your predictions for the past year have again come true, and I was highly satisfied. A friend of mine who you stated would get a special advancement went in for airship training in that particular month, and is now doing well.—H. Reeves, Irvington-on-Hudson, N. Y.

Your statements in my life reading and for the readings of the last two years have been so exact that I am compelled to ask for another reading.—Arshaw K. Nushan, 3980A Windsor Place, St. Louis, Mo.

The life reading I received from you some time ago is simply wonderful. You have revealed my life as if you had known me personally.—Herbert Cook, Sault Ste Marie, Mich., 1635 South Street.

The horoscope you sent me hits me out and out and everything you have told me in the past is correct. Wish I would have known about you three months sooner. Would have been \$1,000.00 better off last year and had I known of you ten years ago I dare say would be \$5,000.00 better off today. I surely will recommend you to my friends.—Gustave A. Lange, Wilkes Barre, Pa.

Don't see how I could get along without your advice. It does not seem possible that one person could be such help to another as you have been to me. You have changed my life and made a new person of me. I used to worry so much and could not be satisfied, but although I still have many trials and troubles, you have taught me how to meet them and I never worry. My heart overflows with gratitude to you and I don't feel you have all the praise that you should have for the good you are doing. May God bless you in your work and help you to help others as you have helped me.—Mrs. R. L. Hall, R. 1, Box 52, Ashland, Va.

Have had three yearly readings from you and must say I am very much pleased with the way things come out as you state.—Mrs. Mary Rottluff, Box 53, Oldham, S. Dak.

The questions were answered very satisfactorily. Have great faith in your labor and your predictions. Will speak well of you to all my friends.—Gust Grantz, Couer d'Alene, Idaho.

A lot of things you have told me are true and I can heartily recommend your work.—Mrs. Louise F. Grey, 24 Liberty Street, Springfield, Mass.

My presumption was that you had passed to the beyond in the long years since I last heard from you. You read for us in 1895, and Mrs. Williams says you are the most correct of your cult. It is ever a solacing thought to consult with a true devotee of any science and I believe you are so cultured in both brain and intent.—Waldo W. Williams, 2134 No. 13½ Street, Terre Haute, Ind.

The reading received from you some time ago was highly satisfactory.—Robt. G. Storey, Box 956, Shreveport, La.

I wrote to one of your patrons, whose testimonial you use, Miss Josie Mason of Memphis, Tenn. I received a very prompt reply from her and it was full of praise for you. I tell you this as I suppose we are all alike in being pleased to know we please others.—Maud L. Smith, Seattle, Wash.

You gave me a life reading about 18 years ago, before I was married, and as you told me—I met the man I married away from home and later married away from home. Have sent you a number of customers.—Mrs. Callie Montgomery, 218½ So. Tenth Street, Keokuk, Ia.

You cast my horoscope some twenty years ago and it was correct, so I have confidence in you.—Mrs. Flora McCaffrey, Boque Chitto, Miss.

Am much pleased with my horoscope. You certainly are a wonderful man for you have told me many things that are exactly true.—W. K. Bingaman, R. 3, Latrobe, Pa.

Received your reading for last year and was extra well pleased with it and am sending for this year. I have tried two other astrologers but you have told my past better than any one.—B. T. Ross, Jr., R. 2, Corydon, Ia.

I hope I will be benefitted by the teaching you have imparted to me. Will recommend you to my friends.—M. R. Patterson, 1916 N. 6th St., Philadelphia, Pa.

The Life Reading is simply great. Have had several, but yours is far the truest of all yet. You told the past perfectly.—Miss Bertha Deuell, Box 487, Jerome, Idaho.

You gave me a reading in 1910. My wife passed away last Fall very unexpectedly. This and other things you told me have come to pass.—Wm. Mead, R. 4, Mapleton, Minn.

I want to thank you for my reading. May God bless you and keep you well, and may some of your dear ones keep up the good work after you.—T. J. Holmes, Box 93, Tallulah, La.

You told my full horoscope twenty years ago and I found it as you foretold up to this time.—Harriet B. Wirsebing, 59 Highland Ave., Nangatuck, Conn.

Can truthfully say that your reading is the best one I have ever had.—Miss B. C. Graves, 983 Asylum Ave., Hartford, Conn.

My yearly readings have so far come true and I can scarcely wait for the next one.—Mary James, 619 B. B. Ave., Alliance, Neb.

All your readings are good and they help wonderfully.—Mrs. W. H. Carter, 4234 Finney Ave., St. Louis, Mo.

Everything you told me in my horoscope last year has happened just as you said and in consequence I think your power is simply wonderful. A person with your learning is a necessity to the less gifted, to my way of thinking.—Alfred Bonner, 598 Bergen Ave., Bronx, New York, N. Y.

The life reading you sent me was a great help to me. I am in better circumstances at this time than I was one year ago today. I found every word true and if I had paid more attention and followed it closer it would have been worth five times what it cost me. Things you told me came true.—Joseph Dunston, Sr., 35 South Fulton Ave., Montclair, N. J.

I find my last year reading to be true. It has been lots of help to me so I feel like I can't do without another one.—Mrs. Sallie P. Hodge, 11 Lake St., Opelika, Ala.

Wish I could tell you what a blessing your good advice has been to me. Where once was worry and sadness, there is now a smile and cheerfulness. I am improving in many ways, and friends are remarking how much younger I am looking, through your help. I have conquered worry and discontentment. May God bless you and help you help others as you have me.—Mrs. R. L. Hall, R. 1, Box 52, Ashland, Va.

Since I received my reading I am making much greater progress.—Joseph O. Pusey, Colonia-Curatro Caminos Prov de Camaguey, Cuba.

Your reading is great. It will be the cause of my living a cleaner and better life, for which I devoutly thank you.—Carroll Pyle, Greensburg, Kan.

Have had life reading and several yearly readings and I have always found them to be correct.—Mrs. A. J. Cameron, Dauphin, Man., Can.

The yearly instructions you sent me for the past year have certainly come out just as you said.—John R. Walton, Port Gibson, Miss.

Your reading has helped me a great deal. Have finished the course you advised and am doing nicely.—Owen Rasmussen, 5147½ W. 25th St., Cicero, Ill.

HOROSCOPE:

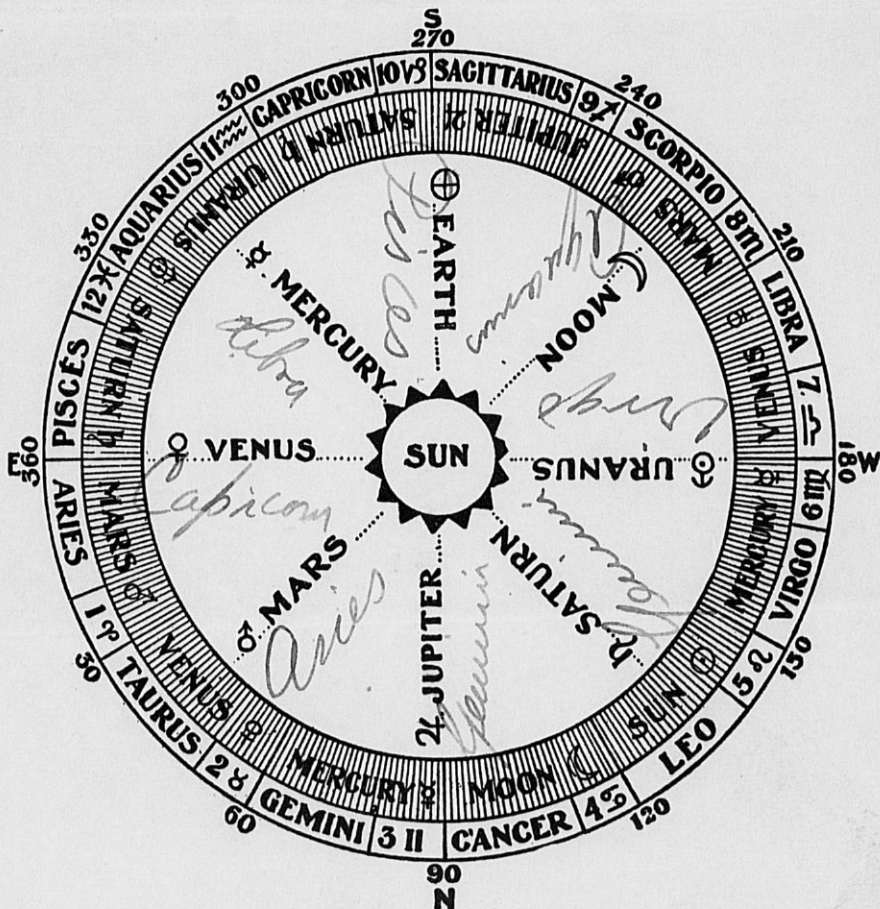

FOR

Wm Anderson

BORN

Feb 20 - 1841

POSITION OF EARTH, MOON AND PLANETS.

EARTH IN PISCES. You are too prone to believe that you were born under unlucky conditions, not only as regards money matters but also in love affairs, and this state of your mind is just what is the greatest hindrance to your advancement. You hesitate and shrink from any undertaking for fear you will fall short of what is expected of you and this lack of confidence in yourself causes others to lose faith in your ability. You are generous but not wise in your generosity for you are too indifferent to your own wants and real needs. There is even danger that you will come to poverty by trying to help others. You go about worrying and fretting too much about your own troubles and everyone connected with you, and too often take the burdens of others on your own shoulders. This does no good and you must realize that it is a mistake to allow your mind to dwell too much on anything of a gloomy character. Become strong and fearless and take up your duties in a calm quiet manner, with

the knowledge that you will conquer. Do not think that people and fate are against you. You can cause yourself great sorrow and destroy your vitality by giving way to a diseased imagination. You possess fine and noble characteristics, which only need to be brought out to endear you to the people about you. You are loyal to your friends and ready to defend them whether right or wrong and would make any sacrifices to further the interests and happiness of anyone you love. You are honest and sincere and very reliable and capable and could satisfactorily fill a responsible position. You do not look for dishonesty or deceit in others and are a little too ready to believe promises made you. You will have a little trouble of this character through one with whom you will have a business deal in about six months. Do not fear your enemies and do not be drawn into altercations and angry words with those who oppose you for you can thus more readily overcome them.

MOON IN AQUARIUS. This aspect shows that you have had a good ideal to contend against in the past years but you are of a rather hopeful frame of mind and you try to make the best of things and usually view everything from a cheerful standpoint. You form acquaintances easily and make friends very quickly, and you are well adapted to mercantile pursuits or any business that brings you before the public. You would make a very good agent or traveling salesman and you are well contented wherever you chance to be and a home life is not really essential to your welfare or happiness.

URANUS IN VIRGO. Denotes some gain through dealings with the public. You should make the most of your productive capacity.

SATURN IN GEMINI. You are very observing and have ability for scientific occupations. Some danger is shown through unfortunate legal affairs.

JUPITER IN GEMINI. You are fond of novelty and recreation. Denotes

benefits through inventions and some trouble through undue attraction to one with whom you are associated.

MARS IN ARIES: This aspect shows that you have very good intellectual qualifications and you have secured a thorough education. You are naturally well adapted to the professions, but it seems that did not fit yourself very thoroughly for a profession. You have good business judgment and this will be a help to you in almost any position that you might enter into, and you are especially well adapted to holding office and will have quite a little influence in politics. You have secured the esteem and confidence of people with whom you have been associated and you will not have much trouble through enemies at any time in the future. There have been a few people about you who have tried to impose upon you and others who have been very indifferent in the past, but you have not allowed these parties to worry you to any extent, as you realize that the

people for whom you care the most are quite sincere in their regard, You should be very careful to keep out of partnership deals and you would not be able to make money easily or rapidly at any period of your life. It seems that you have lost some money in the past through speculations and should be extremely guarded not to enter into anything of a speculative character in the future. You use very good judgment in regard to deals in real estate, and especially in the transfers of farming property, and would be able to make some money through transfers of this character within the next year or two. You are well adapted to contracting lines of business, and you would use very good judgment in handling a business for yourself. There is a slight loss shown for you in regard to a business proposition in which you are now interested, and you will receive unfavorable news regarding the investment about the first of June, but there will be changes for the better in September and you will get along very well in all financial lines during this year.

You are favorably located, and should not make a change of residence and there is not much traveling shown for you in the future. You will be a little arbitrary in dealing with your children and a family will not bring you a great deal of comfort.

VENUS IN CAPRICORN. This aspect shows that you are very faithful in your affections and you try to do your duty in home life, but there has not been a very true happiness for you in the past in domestic life, and you feel very well contented in single life and apparently will not care to marry in the future. You have two or three very good lady friends and they will continue to be friendly to you and will afford considerable pleasure and you will be able to live very comfortably in the later years of life, and will have sufficient income so that you will not have to depend upon others at any time.

MERCURY IN LIBRA. This aspect indicates that your health is very good but there is some tendency to weakness of the back and

kidneys and you need to be careful in your diet. You will live to be old.

I am especially glad that you have come to me at this time, as I feel I can assist you in making your future plans. I see much in your Character to build on, and a bright future ahead of you, if you can but understand yourself and those with whom you come in contact.

Why not let me help you to better your home and social life by sending you a GENERAL READING based on the Zodiacal Signs at the exact time of your Birth?

If you wish to go ahead in this World, either by having a better and happier home, or to rise in life, why not come to me and tell me your troubles and aspirations, and let me aid you. There is always a time in a person's life when they need advice and help from others, and this they find it difficult to talk ~~xxxx~~ about with their friends and family.

Allow me to step in at this time and help you to decide some of these important questions in your life. Let me Cast your Horoscope and advise you about your love affairs, work, and in fact anything about which you are having trouble.

The Zodiac is a circle which contains the Earth, Sun, and the principal Planets, which move, live, and have their being in this Magic Circle. This all Governs your life. The Science of Astrology was known to the Ancients, and the influence of the Planets on the Human Race was then, and is now, an Exact Science.

The importance of Attuning your Life to the Positive Planetary conditions at the time of your Birth, is of more importance than you realize. A GENERAL READING of your Character will be of untold value to you in shaping your Future Destiny. Hundreds have taken advantage of this opportunity, - WHY NOT YOU? Your Horoscope reveals many interesting characteristics, and a bright future for you.

I would like to send you a GENERAL READING based on the Juxtaposition of the Planets and Zodiacal Signs at the exact time of your Birth. This will only cost you ONE DOLLAR. When sending for this Reading you may ask five questions. All my Readings are strictly confidential.

Do not POSTPONE sending for your GENERAL READING. You do not know what a day lost may mean to you.

Faithfully yours,

Edith M. Heath

The planets were in such position at the time of your Birth that you should have a full, happy, and harmonious life, with considerable good fortune; but you should not delay in understanding yourself, in order that you may fulfill your Destiny in this World. You were born under the Zodiacal Sign of Pisces. You therefore have a deep hidden nature and an even disposition. You love your friends dearly, and are generous, kind, and considerate to those about you, seldom expecting others to do as much for you as you are willing to do for them. You are economical and provident with your money. You are exceedingly modest, not realizing what capabilities you actually possess. This is due to your lack of self-esteem. Being of a quiet self-sacrificing nature, other people often receive the credit for what you do. You are capable of undertaking and accomplishing well many things that others cannot do.

You would make an excellent Art Critic, Artist, or Writer. Being of an Artistic Nature you should be particularly careful in your choice of a life companion; otherwise your marriage would fail to broaden you and your home would not be one of perfect harmony. You are fond of seeking knowledge. You are an exceedingly conscientious person and could undertake any work of Trust. You are frequently taken advantage of, as you believe others to be as honest and honorable as you are. You are ceaseless in your desire to do for and give to others, and often worry as to whether you have done as much for those you love as you should do. You are not attracted to people of a coarse nature. This leads you to choose for your associates only those of great refinement and intellectual tastes. You form very strong attachments for your friends, and are constant to them at all times. You are very kind to animals, and it hurts you to see them ill treated. You love good Music, Theatres, Lectures and Books.

You have much in your character to build on, and if you could but realize your excellent characteristics you would soon be able to rise to the highest point in whatever you decided to undertake. A General Reading would be of great value to you, as you are so extremely modest that you have very little conceit, and for this reason you do not allow yourself to go ahead in this World as much as you are capable of. When sending for this Reading do not hesitate to talk to me freely about your ambitions and worries in this life and I will advise you.

YOUR IDEAL SWEETHEART.

Your Ideal Sweetheart should be one born under the Zodiacal Sign of Capricorn, a person of a gentle and kind nature, high-minded, generous, and loyal; should possess great foresight and understand Human Nature. Should love the beautiful things in this World and appreciate everything in Art. Medium height, or a little shorter, dark complexion and hair, and expressive eyes. Should have great executive ability, and full of ambition. There are other people you are attracted to, but such a Character should be your Ideal.

The Zodiac is a circle which contains the Earth, Sun, and the principal Planets, which move, live, and have their being in this Magic Circle.

The Signs of the Zodiac vary in form, and are handed down to us from Chaldaean and Babylonian Astrologers, having a known Antiquity of over 4,000 years.

The Science of Astrology was known to The Ancients, and the influence of the Planets on the Human Race was then, and is now, an Exact Science.

I do not pretend to foretell your future, but as the influence that the Planets have on the Human Race has been known for years, I will point out to you this influence as it governs your life. If this is not in harmony with the actual conditions now existing, or that have existed in your life, it has simply been due to your lack of knowledge of yourself.

Occult Science tells us what is. These laws are immutable. Too many people in this World are satisfied with things as they are. They live in total ignorance of their Destiny, frequently stifling their ambitions for ease and comfort, which lasts for the moment only. KNOW YOURSELF.

The influence of the Zodiacal Signs, Planets, and Stars is too important to be overlooked.

Travelers in Mesopotamia, India, and the Far East, have seen with their own eyes wonders performed by Adepts in Occult Art, but these bear only a trifling relation to the influence of the Planets, and are valuable as corroborative evidence only.

If you would extract from this Reading a basis on which to build, I shall be more than satisfied.

Be warned against belittling those things which you do not understand.

This Reading will be of absolutely no value to you if you do not accept it in the spirit in which it is offered. The true seeker of knowledge starts on the basis of ignorance.

This is the Sign of the Feet of "The Grand Man" of the Great Zodiacal Circle, and denotes a steadfastness of purpose. The Higher Attributes of this Sign are susceptibility of emotions of all kinds, and silence.

At the time of your Birth the path of the Sun lay in the Constellation of Pisces. The governing influences in your life are the Planets Jupiter and Neptune.

The Planet Neptune has not as much influence on your career as the Planet Jupiter.

The Planet Jupiter is one of the most powerful of Planets. His power is so great that he even makes the other Planets deflect from their orbits. He has great power of attraction and bears a marked influence on your life.

The influence of this Planet is to give you a deep strong nature.

You have the power to attract others to you. You find it extremely difficult to refuse any of your friends or acquaintances a favor, even though you feel they are not entitled to it. It is especially difficult for you to refuse to loan money to a friend.

You are honest and upright in all your transactions, and are very much inclined to believe others to be the same. This sometimes leads to personal loss on your part. You are loyal to all, and it is with great difficulty that you are able to see any defects in those whom you love, and you are willing at all times to make sacrifices, however great, for these people.

In view of the fact that people are naturally attracted to you, you are inclined to form friendships quickly. You are not inclined to speak ill of any one, and do not care to have others tell you of the faults of your friends.

Your characteristics are such that you readily assume responsibility not only for your own acts, but for those of your friends.

You are not fond of idle conversation, preferring at all times to talk of something worth while.

-3-

You are emotional, being easily thrilled by good acting, stirring songs, and Martial Music.

You are fond of Music, Art, and everything beautiful and Artistic in this World.

At times you have a strong desire to travel and view the World, This you should do when the proper opportunity presents itself, thereby broadening your views and acquiring knowledge.

You would excel in any work of a Clerical nature, such as the keeping of accounts and the handling of figures. With proper training you should become an expert in this line of work.

You should be a good judge of Human Nature, and therefore when you can you should work for yourself where you will meet a number of people, and where this characteristic would stand you in good stead.

You are possessed of great powers of co-ordination; that is to say, your hands are always ready to do the bidding of your will. You are Artistic, having the correct idea of proportion in everything, and you do everything well with your hands. This together with your brain development makes you capable in all the work you do.

It is better for you not to engage in work of a coarse nature. Your temperament is such that work that requires brain power is better suited for you. With proper training you should be extremely accurate in such work.

You are methodical and orderly, and it is your desire to see everything in its place. You have no patience with those who are careless in such matters.

According to the influences of your Zodiacal Sign you should be fond of your home life. It should be your desire to have a perfect home, complete in all its appointments.

Those born under this Sign and Planets are strongly attached to their native town, although at times they are possessed of a desire to get away and see the rest of the World, but their home town always appeals to them and they do not forget it.

Yours is an independent character. You have a feeling at all times that you can take care of yourself. It is not natural for you to lean on others.

You should guard against worrying unduly, and beware of anticipating trouble. According to your Sign you are naturally careful and cautious.

Do not hesitate to undertake any vocation where your own work will tell, as you are capable and conscientious, and have the ability to grasp a new idea quickly.

Live up to your Highest Ideals in this World, guard against allowing others to swerve you from what you think is right for you to do.

If possible, endeavor to obtain work where your Artistic ability can be of use to you; or work that requires neatness and accuracy.

Graphological Delineation

For:- Mr William Anderson,

An examination of your handwriting, which is one of the most interesting I have studied, shows me that you are of a very ambitious disposition, and had it not been for the obstacles which beset your path it is very possible that ere this you would have achieved conspicuous success. Constant effort, however, along right lines, should result in your ultimately overcoming these, and will, I think, effect the attainment of all to which you aspire.

Certain characteristics of your handwriting display an energetic, persevering disposition. There is one fault, and I am sure that in your own interest you will pardon me for pointing it out, which is, that you are attracted by counter influences. These may probably be of a social kind, and you should avoid letting anything take your mind and efforts from the main issue.

Your handwriting displays a generous disposition, which is a most commendable but rarely exhibited quality. In fact, I might say that you are too generous, and you should learn to temper generosity with discretion. The formation of your letters shows me that while you may criticise the advances of a person adversely, you nevertheless give way to his or her requests when your sympathy is appealed to. Courage in the face of difficulties or danger, is another quality which you seem to possess, and which would assist you very materially in your life work. It seems to me that you would bear reverses with fortitude, that you would be brave in the face of danger, and that you would show a passive firmness in refusing to do a thing which you would know inwardly to be wrong.

A very high percentage of people fail to develop their latent powers and go through their lives without realising the importance of a study of psychological subjects. Your writing seems to show that you are not an exception to the rule, and that there are certain dormant faculties which, when developed, would make you far more magnetic than would otherwise be the case.

I feel sure that you will not mind my pointing out your faults, for the majority of people send for a character delineation to learn their defects as well as their good points. I would therefore tell you that you are of a worrying disposition, which is in a way a fault. You should remember that we all have a certain amount of trouble to bear, and you should content yourself with the fact that every trouble or bereavement which has to be experienced means one step further towards that peace of mind and repose which only those who have lived an industrious life can fully appreciate. Take notice of what I have said to you in this delineation, develop the qualities that I have commended, and endeavour to discard those which I have condemned, and I feel sure that you have a career before you which should surpass even your most sanguine expectations.

Sincerely,

Steno. 6.
