Friend

Benjamin Gate. Yours of the 14th is received, contains notes
The samples which I sent you were strictly Standard quality
Not the same as the Market is now flooded with. But same grade
as I have manufactured for the last 20 or 25 years past. I quoted you
70% Dis - which is the best I could do for the quality #2 xx, same
as the samples returned. I have only of the latter now some 250 lbs
or there abouts. of this quality. There is a larger discount offered, but
the quality is not given, but an inferior grade. on acct of
being obliged to vacate when I can, and at present cannot find a suitable
place and rent, it may be some time before I can get running again.
However the above is the best I can do, remember for this quality. I wish to
thank you for answering my letter. And trust you will take what I
have at present. Could you use a short straight #1 xx instead of #2 xx Paper
I think you could if you tried. I have some 650 lbs well selected, & of the best. Act
samples of latter sent you, please reply and oblige
Yours truly

Friend Dr. Drake

On my return from
London I find your letter of April
26th. We do not accuse you of any
dishonesty but we must claim
that there has been a serious
error in the manufacture of
the extract of Mandrake.

We were hearing complaints from
all directions about the change
in the action of the medicine
and the business was of too much
importance to let these complaints
go without investigating the
causes. We find upon
analysis that one pound of
Extract of Mandrake

$\frac{1}{2} \frac{t6}{v}$

contains but one ounce
of Podophillin - At the price
we pay for the Mandrake it
would make the cost of
this resin \$40 - per pound
while we can buy it for
\$250 -

As there is so much uncertainty
about the quantity of Podoph-
illin in the Mandrake we
will in future have the
batches put up without
the Sct. Mandrake and add the
quantity of Podophillin needed.
In this way we shall secure
uniform mixtures.

How is the Sct. of Colocy^{us} made?
Is it made of the apple and seeds
or of the pulp alone?

Yours truly

A. White

August 19th 1886.

Beloved Bro Benjamin.

It is now 2 o'clock P. M.

I sit at home with the good things of life around me,
& you are 4 days out upon the boundless waters.
I have often thought I would like to gaze upon the
shoreless Ocean & experience the novelty of a sea voy-
age, — but it is not at all necessary, & would perhaps be
utterly useless — I am contented to be without it to my
latest breath. I set out with the understanding that
I was to crucify all desires, not expedient to gratify,
if I would win contentment, & it is nearly finished.
I have just got thru having a little interview with
Earnest — he appears to be growing in faith, under-
standing, & courage, & it does my heart good to
witness it. During the last week Charles
Reiff, the young Russian, has moved from the
North to the Second Family. His head appears
to me very round, but I believe it is a good one.
We had a number of spectators in our meeting this
morning. I did not count them, but I should think a dozen
or 14 on the Ladies.

[21]

We had a good meeting however. Four spoke, besides
the exercise & singing. It is a beautiful day - last
sabbath, it rained much of the day & we met at home.

In relation to week day business - We
mixed & dipped a batch of 7 Barks Wed. & Thurs.
& Robert expects to bottle the pain king the week
coming. Has received no orders for shipment
since the one you sent last.

I put 32 Gall. Alcohol to 220 lbs. Mandrake
root - ^{the} Sat. of your departure & 30 gall. to 200 lbs
more, Tues. 14, & it is now macerating. The
cynth has not got along yet.

Tim came in Wed & Thurs & put between 8 & 900 lbs.
Butternut bark in chest, & then went out to the oats
again. Joseph that they would finish that job by the
close of the week. Paul Southworth is the only
one that has bro't any bark - 4 or 500 at a time.

He says you gave him 2 cts a lb. for it green, the
first load, & that it is so agreed on the order. But
he has lost his Order, & I can only send the net amount
of bark to the Office.

[3]

Bro. Benjamin - are you or William troubled with sea sickness? As soon as you feel the sickness coming on, put 4 or 5 drops chloroform in half a wine glass of water & drink it. It is said to be sure cure. It is simple enough to do no appreciable harm, one would think, & is not very expensive.

Another little affair which may not be worth investigation - Mother Ann's Mother's name is not known in our society - neither her maiden nor her given name - nor is it down in any of our books that I ever saw. Was it so designed to be? Neither is the month of Father William's birth. Both are perhaps of no particular account, else they would have been preserved.

I inclose the advertisement of a book, (Catalog. of 1884,) which if you have a mind to take notice of you can - & if not - I care not, as I have enough to occupy my time & attention without it. It contains a reference to Ann Lee, the Manchester prophetess.

Dear Brethren - with these few lines, Please accept

[4]

The Love Blessing &
good will of all your Brethren
& Sisters at home — You always
have it, at home or abroad. Rhoda
says you will be blessed & prospered;
& Hannah & Agnew says Give
them all our best Love. So we all say.

I asked Nellie yesterday — or rather
I said you must write to Benjamin
& she said "I have begun. It is
now Monday morning. They tell me there
is a brother here from South Union, who has
liberty to make a home here if he can.
I had one glance at him in meeting yesterday —
is a physician I have not learned his name.
Sister Abigail is very much afflicted with
painfully swollen & inflamed feet & legs below the
knees — but is a little better than she has been — If love
& good wishes would cure her, I think she would
soon be well. I hope you will be able to keep
in health both of you & farewell always

Dear Sir: Yours 30 ulto rec'd,
and in reply I would say I can sell
you a parcel of Aloes like last, if
the transaction is quite private, at
the confidential price of 10^c per lb
Some are in boxes, a few in tins,
and a part are rather overboiled
and frothy in taste, but all the
better for your purposes as there
is less moisture while there is more
extractive matter and active principle

IT BEING EXPRESSLY UNDERSTOOD AND AGREED, That the Union Line reserves the right, in consideration of issuing a Through Bill of Lading and guaranteeing a through rate, to forward said goods by any railroad line between point of shipment and destination.

IT IS FURTHER AGREED, That the rates given on bulk freight are given on the understanding that not less than 24,000 lbs. will be loaded in each car, and that such minimum weight may, at the option of this Line, be charged for whether that quantity is placed in the car or not.

IT IS FURTHER AGREED, That all weight in excess of 30,000 lbs. per car may be charged double the rate named in this Bill of Lading.

IT IS FURTHER AGREED, That the said Union Line, and the Steamboats, Railroad Companies, and Forwarding Lines with which it connects, and which receives said property, shall not be liable for Leakage of Oils or any kind of Liquids; breakage of any kind of Glass, Earthen or Queensware, Carboys of Acids, or articles packed in glass, Stoves and Stove Furniture, Castings, Machinery, Carriages, Furniture, Musical Instruments of any kind, Packages of Eggs, or for rust of Iron and of Iron Articles, or for loss or damage by wet, dirt, fire, or loss of weight, or for condition of baling on Hay, Hemp or Cotton; nor for loss or damage of any kind on any article whose bulk requires it to be carried on open cars; nor for damage to perishable property of any kind, occasioned by delays from any cause, or by change of weather; nor for loss or damage on any article of property whatever, by fire or other casualty, while in transit or while in depots or places of transhipment, or at depots or landings at point of delivery; nor for loss or damage by fire, or collision, or the dangers of navigation while on Seas, Rivers, Lakes, or Canals. IT IS FURTHER AGREED, That unless this Bill of Lading, properly endorsed, be delivered to the Agent of the Union Line at destination, on or before the arrival there of the hereinabove-described property, the said Line is authorized to deliver the said property to the consignee, or to the party to whose care it is, by this Bill of Lading, consigned; and after such delivery, the said Line shall be no longer responsible for or on account of this Bill of Lading or for or on account of any assignment or transfer thereof.

IT IS FURTHER AGREED, That the said Union Line, and the Steamboats, Railroads, and Forwarding Lines with which it connects, shall not be held accountable for any damage or deficiency in packages after the same shall have been receipted for in good order by consignees, or their agents, at or by the next carrier beyond the point to which this Bill of Lading contracts. Consignees are to pay freight and charges upon the goods or merchandise in lots or parts of lots as they may be delivered to them, and upon the weight as ascertained by the Line's Scales. The goods transported shall be subject to a lien, and may also be retained, for all arrearages of freight due on other goods by the same consignee or owners.

IT IS FURTHER STIPULATED AND AGREED, That in case of any loss, detriment, or damage done to or sustained by any of the property herein receipted for, during said transportation, whereby any legal liability or responsibility shall or may be incurred, that Company alone shall be held answerable therefor in whose actual custody the same may be at the time of the happening of such loss, detriment, or damage.

AND IT IS FURTHER AGREED, That the amount of the loss or damage so accruing, so far as it shall fall upon the carriers above described, shall be computed at the value or cost of said goods or property at the place and time of shipment under this Bill of Lading, except the value of the articles has been agreed upon with the shipper, or is determined by the classification upon which the rates are based.

IT IS FURTHER AGREED, That all weights furnished by shippers are subject to correction.

THIS CONTRACT is executed and accomplished, and the liability of the Company as a common carrier thereunder terminates, on the arrival of the goods or property at the station or depot of delivery (and the Company will be liable as a warehouseman only thereafter), and unless removed by the consignee from the stations or depots of delivery within twenty-four hours of their said arrival they may be removed and stored by the Company, at the owner's expense and risk.

NOTICE.—In accepting this Bill of Lading, the shipper or the agent of the owner of the property carried expressly accepts and agrees to all its stipulations, exceptions, and conditions.

Dear Sir

I have at last succeeded
in securing a portion of Poke root, sold
you some months since, which I now
ship, as per Invoice & B/L herewith; and
which I hope will meet yr requirements,
until I can get balance of your order.

I have been much annoyed,
at the delay & even now I suffer a loss
in the transaction - The party who
was to deliver the lot in my favor which
I was to fill yr order, alleged that his root
rotted on his hands, before he could cure it -
Another shipper, was to deliver 2000 lbs, not
later than January, failed to fill his contract,
& did not make even an expense; nor was he
a responsible party, or I would have com-
pelled him, to furnish the goods. The article
