

Copy of letter by Henry Clough

Dear Elder Walter

If you are satisfied as to the truth of my statements, and convinced that your Treasurer has willfully and maliciously wronged my family and self, that she is accountable for her mistakes and responsible for the injury and injustice done us, "little is to be gained by going further into accusations." That you are sincere in "wishing justice done me" and desirous of "coming to a settlement in a spirit of fairness" I accept most gratefully; to this end your terms will have my careful consideration.

Very Appreciatively Yours  
Henry Clough
